(2006) demon- **redox regulation of plant development - liebertpub** - redox regulation of plant development michael j. considine1-3 and christine h. foye1,3 abstract significance: we provide a conceptual framework for the interactions between the cellular redox signaling hub and the phytohormone signaling network that controls plant growth and development to maximize plant **redox regulation of auxin signaling and plant development** - redox regulation of auxin signaling and plant development redox signaling plays a critical role in relaying accurate information about a myrriad of environmental conditions (including light, pathogens, herbivores, water status, and various abiotic stresses) toward opti-mizing plant cell metabolism and maintain-ing metabolic homeostasis. there ... **redox regulation of fertility in aging male and the role ...** - 2, a signaling molecule in the cell [27]. as with other endogenous ros, h₂O₂ has particularly emerged as major redox metabolite operative in redox sensing, signaling and regulation in cellular function, including the male reproductive tract and sperm function [28]. h₂O₂ may be partially **regulation of redox signaling by selenoproteins** - regulation of redox signaling by selenoproteins wayne chris hawkes & zeynep alkan received: 10 february 2010 /accepted: 12 february 2010 / published online: 20 march 2010 # the author(s) 2010 ... **cellular redox regulation, signaling, and stress response ...** - regulation of asa biosynthesis, (2) the molecular properties and physiological roles of apx isoenzymes, and (3) redox signaling-mediated stress acclimation and its regulation through asa metabo-lism. in this review, we described asa-dependent cellular redox regulation and stress responses in plants, and discussed recent advances and future **redox signaling: nitrosylation review and related target ...** - mechanism of regulation interactions with metals coordinate covalent interactions of small diffusible ligands with the centers of iron sulfur clusters and heme proteins can lead to either a decline or an increase in protein activ- review ity. attack by no on key [4fe4s] centers in the mitochon- ... review: redox signaling by no . **"redox regulated transcription factors"** - redox regulation is likely to be important for control of many cellular signaling pathways and seem to be highly complex and transient compartmentalisation as well as protein-protein interactions are likely to be important in redox regulation, in addition to mere reduction/oxidation reactions **redox regulation of protein tyrosine phosphatases during ...** - regulation of protein function by reversible modification, which, in turn, regulates many cellular processes such as cell proliferation, differentiation and apoptosis. in this article we focus on the interplay between phos-phorylation- and redox-dependent signaling at the level of phosphotyrosine phosphatase-mediated regulation **regulation of stem-like cancer cells by glutamine through ...** - research open access regulation of stem-like cancer cells by glutamine through β -catenin pathway mediated by redox signaling jianwei liao1,2†, pan-pan liu1†, guoxin hou1†, jiajia shao3†, jing yang1, kaiyan liu1,2, wenhua lu1, shijun wen1, yumin hu1 and peng huang1,2* abstract **mitochondrial uncoupling proteins: subtle regulators of ...** - comprehensive invited review article mitochondrial uncoupling proteins: subtle regulators of cellular redox signaling petr jez'ek,1 blanka holendova',1 keith d. garlid,2 and martin jabu'rek1 abstract significance: mitochondria are the energetic, metabolic, redox, and information signaling centers of the cell. **cardiovascular redox signaling symposium - mcw** - the redox biology program cardiovascular redox signaling symposium is jointly organized by the department of biophysics and the redox biology program at the medical college of wisconsin. the symposium would not have been possible without the generous support of our many sponsors. we are grateful for their investment in scientific **regulation of inflammation and redox signaling by dietary ...** - regulation of inflammation and redox signaling by dietary polyphenols irfan rahmana,*, saibal k. biswasb, paul a. kirkhamc adepartment of environmental medicine, division of lung biology and disease, university of rochester medical center, mrbx 3.11106, 601 elmwood avenue, box 850, rochester, ny 14642, usa bdepartment of biochemistry, dr. ambedkar college, nagpur, ms, india
